

# JORDNÄRA

*A home close to nature*

*September morning, everything is quiet. A light mist lingers over the garden and dissolves its contours, much like an aquarelle painting where layers of colours and shapes create a dreamlike view. Let's spend the day where we are at ease, resting in the comfort of our home.*

*In a time where we spend more time at home, our sanctuaries are more important than ever. We need rooms that breathe where we can regain peace and balance.*

*Our collection "Jordnära", "a home close to nature", embraces the concept of "slow-living" and patterns with soft aesthetics and a pleasant presence. Feel close to nature and the beauty within the simple and uncovered. Harmony between art, nature, and the wild, elegantly and dreamily tamed.*

*Our love for the craftsmanship behind the art is evident and shown through delicate brush strokes, where transparency meets soft textures and modern graphic lines.*

*Images are available to download and share from our [Google Drive](#) on the official launch date of each drop.*

**Styling and photos:**

## JON

The feeling of being in a misty bamboo forest. A dreamy watercolor with a harmonious depth will create a sense of calmness in any room.

## IRENE

A delicate Jasmine climbs up against a raw brick wall and creates a modern organic expression.

## KRISTOFFER

Like looking over a forest grove where the trees sway quietly in the wind, creating soft shadows in the treetops.

## LO

Create an atmospheric impression with soothing watercolors, beautiful poppies, and delicate twigs. Lo gives the walls a vibrant and modern character.

## MORÄNGEN

Hand-painted poppy flowers amid large seed capsules and sheer twigs create a feeling that you are much smaller amongst a large meadow.

## ANNA

Harmonious coastal watercolors where layer upon layer of rocky reed beds give small birds peace to blend into their surroundings.

## SARA

Along Amstel's beautiful riverwalk in Amsterdam, beautiful willow trees bend and wind towards the waters. A pattern with a soft appearance.

## EVELINA

Magnificent in detail, with its tone-on-tone colors, this pattern creates a pleasant and exciting background on any wall.

## MONICA

The pattern is a collaboration with artist Monica Andoff, who with experimental plant dyeing on paper created the basis for this dreamy expression.

## ROST

Modern, rustic surface with patina. A perfect foundation for those who want a tactile and abraded character.

## FADED PASSION

Romantic vintage look where the rubbed textile surface meets the splendor of the passionflower.

## SKOG

A quaintly processed photograph on a foggy autumn day under a beautiful beech forest with leafy arches will give any room an atmospheric expression.

## STELLA

Decorative small patterned wallpaper with exquisite small hand-drawn forget-me-nots among foliage that can be seen on closer inspection.

## JULIA

A sweet gradient with thin elegant flower stalks creates a modern romantic expression.

## MAGNUS

This block-striped classic matches strongly in a modern expression as well as in a more traditional setting.
