BURLWOOD BLOCK

Burlwood Block is modeled after actual burlwood, which comes from a tree that had grown an outward “burr” or “burl” growth. The burls yield a highly figured wood known for its rarity and the irregular designs it creates. Look closely and you will see the subtle blocks pieced together to make this pattern. A variegated emboss add to its uniqueness. It comes in a natural burlwood color as well as 4 other colorways.
