Ножки

Уже 20 лет наша фабрика производит ножки из ценных пород древесины для различных видов мебели. В ассортименте более 100 моделей, отличающихся актуальным дизайном и совершенными пропорциями.

- Нарядные резные и лаконичные точеные ножки для столов, стульев, банкетов и табуретов.
- Высокие опоры для барных стоек.
- Невысокие ножки для диванов, кроватей, пуфов, кресел, шкафов, комодов, тумб.

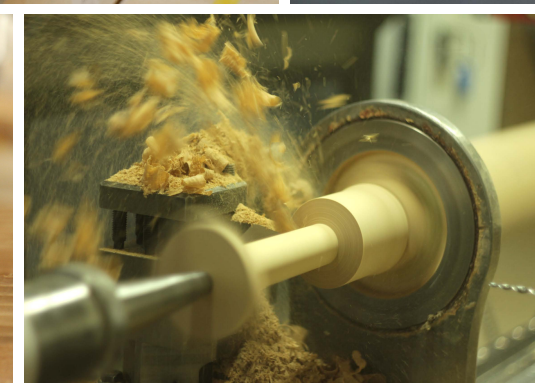

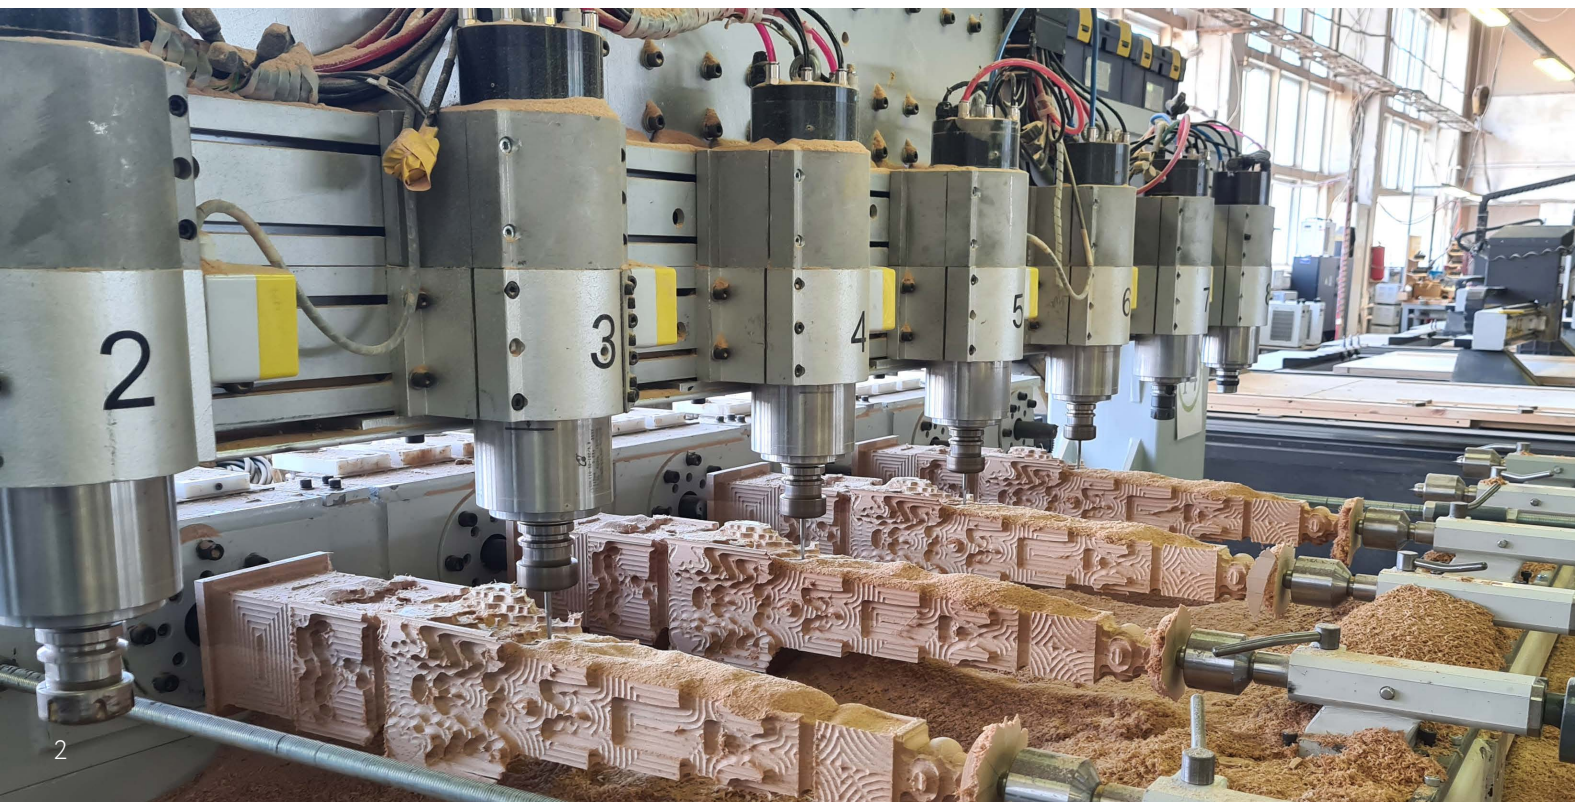

Каждая модель создана, чтобы подчеркнуть индивидуальность мебели и интерьера в целом.

Широкий размерный ряд позволяет подбирать ножки из одной дизайнерской линейки для различных предметов мебели и создавать комплекты в едином стиле.

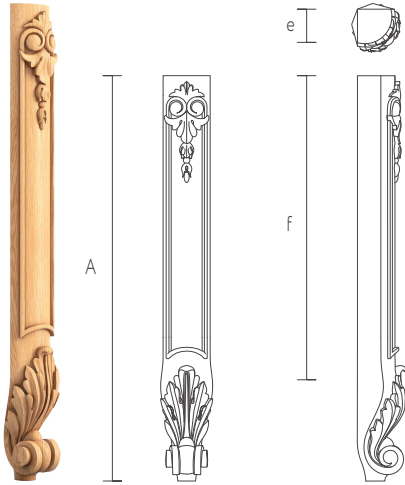

Для удобства монтажа, мы можем оснастить ножки специальной системой крепления, которая позволит быстро и легко произвести установку, а также сэкономить время на самостоятельном подборе необходимой крепежной и соединительной фурнитуры.

Безупречное качество исполнения - наш приоритет.

- Производим опоры из массива бука и дуба с помощью современного оборудования.
- В каждом цехе работает автоматическая система поддержания влажностного и температурного режима.
- Не экономим на качестве: используем только технологически правильно высушенную древесину от ответственных российских поставщиков.
- При переклейке заготовок для будущих изделий используем клей KLEIBERIT 303.2 (Германия, качество склеивания - D3) и мощные прессы.
- Поддерживаем складскую программу на самые востребованные модели.
- Заказ от 1 шт. Быстрая доставка по всей России.
