ICONS PRESS RELEASE SS19

ICONS

Culturally significant designs meet exquisite techniques in Zoffany icons, an influential capsule collection new for Spring/Summer 2019

Celebrating some of the most exceptional design influences of recent time, Zoffany Icons features a divine curation of standout weaves, embroideries and prints, representing different cultures and eras.

Each of the 11 stunning fabrics that make up this collection have been chosen for their individual merit, with hero designs from famous art houses sitting alongside inspiration from France, Japan and Africa. Distinctive new designs reside confidently amongst archive pieces from the Zoffany library, where breath-taking representations on the finest fabrics showcase a masterclass in technique.

Crafted in a concise colour line, Icons works seamlessly with all Zoffany Alchemy of Colour tones, from the mineral subtleties of Quartz Grey and Zinc to the jewel like riches of Tiger's Eye and Lazuli.

Zoffany's head of design, Peter Gomez says, "Our SS19 collection pays homage to a range of leading design influences such as Bauhaus and the 1920s, both of which are approaching their centenary. Combined with cultural elements and a selection of Zoffany's own archive designs, this collection shares a delightful contrast between old and new, proving that iconic design always has a place amongst exceptional interiors".

To complement Zoffany Icons, the Zephyr Plains book offers a fabulous range of tactile, 100% brushed cotton fabrics. Available in a range of 25 colours, each expertly coordinating with Zoffany Icon's fabrics, Zephyr Plains provides an excellent alternative to velvet.

The launch comprises two books: Icons Fabrics (which incorporates prints, embroideries and weaves) and Zephyr Plains.
